What do you like / dislike about the posts?

Content	Dangers/Risks
full name and birth date	stalking
other people in picture	ask for consent
upload picture without thinking about it	Internet never forgets (may be embarrassing later)

What to do:

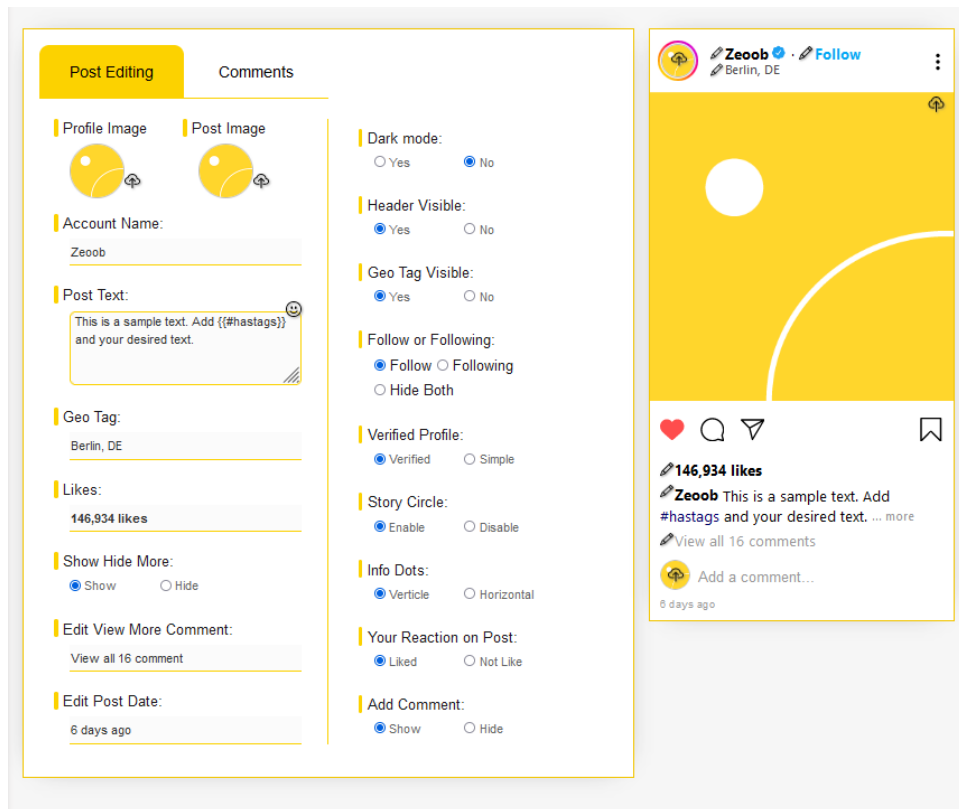

- share what you love
- get in contact with others
- look at it

What not to do:

- believe everything

Extra Question: Is it important to have many likes and followers?
